

# ASI<sup>®</sup> MAG-DRIVE PUMP RACK

- Proven ASI Magnetically-Driven Gear Pumps
- 3-year No-leak Warranty On ASI Pumps
- Flow Rates From 2gpm - 8gpm
- Explosion-Proof Components
- Dual Pump Redundancy Options
- Alternating Options Via PLC & Pressure Switch
- Full Customization To Fit Your Specific Needs
- Optional socket welded piping

## THE FIRST 8 GPM PRODUCTION PUMP

Since 1984, ASI has always had the customer in mind. We saw a need for a reliable pump that did not leak. The only logical and economical solution was a “sealless” pump. It needed to be rugged enough to handle harsh chemicals and precise enough for fuel additives.

In early 1992, after nearly two years of research and development, ASI shipped the first 8gpm production pump. In less than a year, ASI saw a need to produce different sizes for other applications. Today, we have over fifteen models and more than 8,000 pumps in service.

Our standard pump racks are based on our simple design originally manufactured in 1993. When you put the PLC pump alternating options on this skid, you create a great deal of confidence within this aspect of your additive system.

## Products

*Custom fabricate to your spec' in steel, aluminum, SS, etc.*

*Industrial, commercial, agricultural, residential*

*Gasoline, Diesel, Biodiesel, CNG, Ethanol, Jet, Water, Crude Oil, Natural Gas Liquids, Mercaptan, etc.*

*Turnkey Truck Racks, Blending Skids, Metering Skids*

*High Pressure Sampling Pumps*

*Leak-Free Magnetically-Coupled Gear Pumps*

*SS Hammer Industrial Duty Magnetically-Coupled Pumps*

*Tanks built to virtually any size*

*OSHA Standards, NFPA Specifications*

*Custom Vent Hatches*

*Specialty Breathers*

*Desiccant Filters*

*Additive Monitoring and Management Systems*

*Custom containment pans*

*Ladders, Platforms, Cages*

*Mechanical Gauges*

*"Red-line" Tank Gauges*

*Portable Additive Systems*

## Service

*Turnkey Installation of Additive Equipment*

*Quality Preventative Maintenance Programs*

*Complete System Calibration*

*Retrofit Installation of existing equipment*

*General Maintenance*

*Complete Engineering/CAD Services*

*Systems Replacement and Upgrades*

*Over 250 Years Combined Employee Experience*

*Guarantee the Job Is Done Right*

*Tailored jobs for specific requirements*

*Maintenance checks on your injection system: monthly/quarterly/annual*

### **TEAM & EXPERIENCE**

ASI has created an environment that includes the most proficient and experienced people in the industry. Currently our team consists of over 30 employees and 250 years of combined experience. This includes electrical, mechanical, computerization, engineering or any of today's high-tech needs, as well as

having the knowledge and expertise to work with products that revolutionized the market over fifty years ago.
